Bench 100% solar

PATENTED

DATA SHEET:

Width: 0,35 cm
Length: 1,50 cm
Height: 0,51 cm
Metal structure
Weight: 55 kg

+Equipped with a charging service for smartphones, laptops tablets and other devices, all powered by green energy

+Two USB input charger set

+Wireless charger for iphones

+Sealed Battery For Storing Photovoltaic Energy

+Solar regulator 12/24

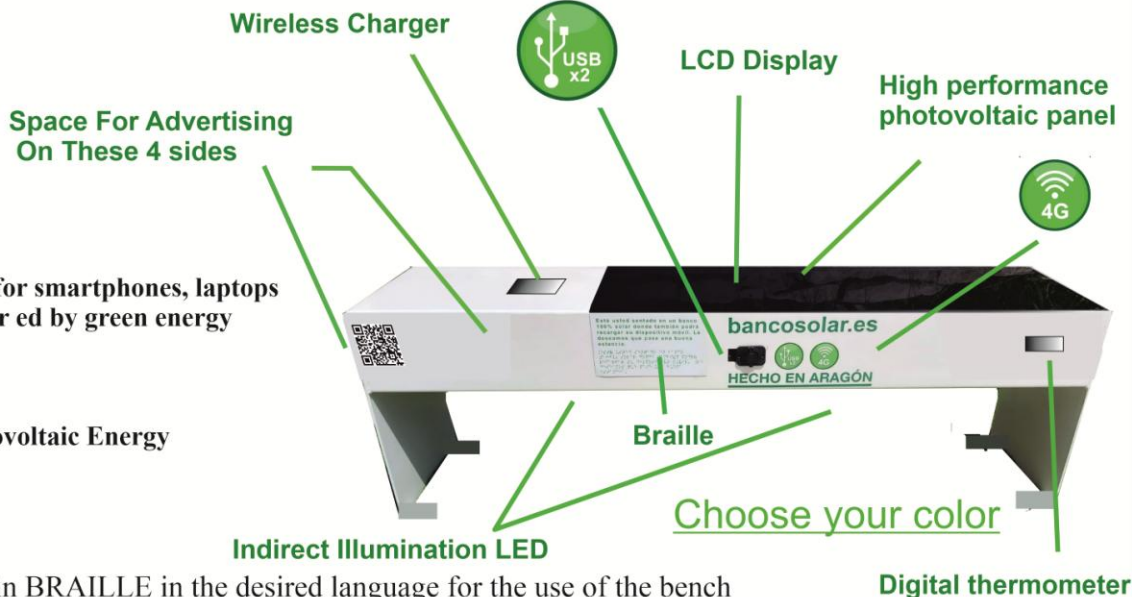

+Twilight sensor

+ Option of engraving on metal in BRAILLE in the desired language for the use of the bench

+LED ambient light switch

+Digital thermometer

The innovative PERC (Passivated Emitted Rear Cell) technology guarantees a better absorption at longer wavelengths, forexample, at flat beamangles (morning or night) better performance than other solar panels in cloudy conditions on streets, patios, gardens, balconies and on terraces with less lighting.
